

groundbreaking first step for both nations and global security as a whole.

While much work remains to be done, the commitment to recover the remains of 7,802 American soldiers who were prisoners of war or missing in action during the Korean war deserves a special recognition. Bringing these fallen heroes home will give long overdue closure to the loved ones and families of those who made the ultimate sacrifice.

We must deal firmly with North Korea while taking steps to ensure a brutal war is not repeated.

NATIONAL MEN'S HEALTH WEEK

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, over the past 100 years, the life expectancy of men has declined in comparison with that of women. Women now live, on average, 5 years longer than men.

There is a silent crisis of men's health in America. To reverse the decline, we must be silent no more. Too often, men are foregoing routine health screenings, and they are dying because of it.

Colon cancer, heart disease, high cholesterol, diabetes, all of these are treatable or even preventable, if you get screened. Screenings aren't scary. They don't hurt.

This morning, my staff and I were screened by healthcare professionals on Capitol Hill with the Men's Health Network. Knowledge is power, ladies and gentlemen, for my staff, for myself, and for our families.

Just a few minutes ago, my fellow chairman of the Men's Health Caucus, Congressman MULLIN of Oklahoma, joined me to introduce a resolution recognizing June 11 to 17 as National Men's Health Week. I encourage each of you to join us on this resolution and help end the silent crisis of men's health in America.

RECOGNIZING THE MORRISVILLE STATE BREWING PROGRAM

(Ms. TENNEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TENNEY. Mr. Speaker, I rise today to recognize the teaching brewery at Morrisville State College, which, despite opening just last fall, has won the title as Grand National Champion brewing school in North America at the 2018 U.S. Open College Beer Championship. The contest, open to any college or university offering brewing courses, is held to determine the best future brewers in North America.

Morrisville State College currently offers the courses as electives but hopes to have a full curriculum for the fall of 2019, making Morrisville the

first State university of New York with a 4-year brewing program. Morrisville's program fits right in with upstate New York, which has several well-known breweries that bring jobs, creativity, and originality to the region, including the F.X. Matt Brewing Company, the fourth oldest family brewery in the United States; the Empire Brewing Factory in Cazenovia; and also the Cortland Farm Distillery and Brewery in Cortland, New York.

Mr. Speaker, please join me in congratulating Morrisville State College on becoming the number one brewing school in North America their first time out. It took a lot of dedication from the students from Morrisville. I look forward to tasting some of their products as we move into the next semester.

HUMAN RIGHTS EMERGENCY

(Mr. CARDENAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARDENAS. Mr. Speaker, right now we have a human rights emergency at our borders. ICE agents are ripping children from their mothers' arms. These are babies as young as 11 months. They are holding these children in facilities that are so full that now Trump wants to build tent cities to house more children.

There are reports of ICE agents telling parents that they are taking their child to give them a bath, and then the parents don't see their baby again.

Think about that: No notice. No due process. Just silent, cruel separation.

This is happening on our American soil. This is the policy of the Trump administration. ICE has an \$8 billion budget, and this is what our taxpayer dollars are buying: holding babies, cold and alone, in what are internment camps for little children.

My fellow colleagues, we are not a country that follows a selfish, cold-hearted dictator. We are the United States of America.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities toward the President.

RECOGNIZING PATROL OFFICER ANTHONY CHRISTIE

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today to recognize Savannah, Georgia, Police Department Patrol Officer Anthony Christie, who lost his life in the line of duty on May 25 at the age of 37.

He is remembered as a passionate person who was deeply devoted to his fellow officers and community while simply loving his job. Before joining the police force, Officer Christie served in the United States Navy, where he

earned a number of accolades, including the Navy Good Conduct Medal and the Global War on Terror Service Medal.

He carried this excellent work with him from the Navy over to the police force. In one mission, he rescued a child who was abducted and abandoned in the woods. His fellow officers always wanted to work with Officer Christie because of his calming presence and their respect for his work.

Officer Christie's passing is a reminder to us all of the danger officers must endure when they go to work to keep us and our families safe. I encourage everyone to thank our first responders on a daily basis, not only in the times when we need them the most.

To Officer Christie and his family, we offer our deepest condolences. Thank you for your service.

May God bless.

SCOTT PRUITT

(Mr. HUFFMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUFFMAN. Mr. Speaker, the Trump administration is the most corrupt in our country's long history. They are enriching themselves and rewarding special interests and campaign donors like nothing we have ever seen. If you need proof, look no further than our polluter in chief, Scott Pruitt.

Every day brings another Pruitt bombshell. Just today, news broke that, last year, he enlisted a top EPA aide to ask big Republican donors to help his wife find a job, eventually securing her a position with a conservative political group, Judicial Crisis Network. We have learned about similar efforts involving Pruitt's attempt to secure a Chick-fil-A franchise for his wife using EPA resources.

He raised millions of dollars as attorney general of Oklahoma from oil, gas, and coal companies for his campaign. He chaired a dark-money group that organized State challenges to clean water and clean air protections. He sued the EPA 14 times as Oklahoma AG to block public health protections while raking in campaign contributions from his polluter co-litigants.

He is facing more than 12 Federal investigations into his corruption, influence peddling, and waste of millions in taxpayer dollars on his lavish lifestyle.

Mr. Speaker, in any other administration, at any other time, he would have been fired long ago. It is time for Pruitt to go, and it is time for Congress to do something about the toxic corruption in the Trump administration.

THE IMPORTANCE OF C-SPAN

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, recently, I was invited by a young friend,
